Dear, let me explain what happened with HK booking 13:30 ✓
The originally scheduled vessel with ETD 28-feb, brought its cargo cut-off deadlines forward. Our team attempted to request an extension, however, Hapag transferred the booking to the next available sailing. 15:31 ✓
The subsequent vessel will omit the port call in Navegantes. As a result, the booking was confirmed on the next vessel with ETD only 13-mar. 15:31 ✓
As an alternative, I checked with COSCO regarding the possibility of confirming the booking on the vessel with ETD 05-mar in Navegantes, however, they currently have no space available. 15:31 ✓
I also checked with all available carriers, and the only one still offering space for ETD 05-mar is CMA CGM, although at a slightly higher freight rate. I can share the full details with you for your review. 15:32 ✓
